SL STM32 MP157 SoM-Line

We can't do Magic, but we'll bring everything under one Roof: graphics, communication and realtime control

- > STM32 MP157A, 2x Arm[®] Cortex[®]-A7 Core, 1x Arm[®] Cortex[®]-M4 in one housing
- > 3D GPU
- > Scalable memory expansion
- Pre-installed embedded Linux operating system incl. all drivers for communication and LCD/touch interfaces

Technical Information

FUNCTION		STANDARD	OPTIONS
MICROPROCESSOR	CPU	STM32 MP157A

SAFETY		TrustZone, AES 256, SHA-256, MD5, HMAC, 3x Tamper Pins with 1 active, Secure RAMs, Secure Peripherals, Secure RTC, Analog true RNG, 98-bit unique ID	

Product Highlights

The System on Module (SoM) from Kontron Electronics offers concentrated computing power for visualization, Internet communication and demanding control tasks in mechanical engineering and device technology. Three processor cores in one housing provide the right solution for every task. Based on the Linux operating system, the Arm® Cortex®-A7 Dual Core part handles all complex visualization tasks, including the display of web content. With the Arm® Cortex®-M4 processor, the STM32 MP157A features proven microcontroller technology with a wide range of peripherals.

Thus, this SoM provides an excellent solution module to realize very compact, powerful device or machine controls in combination with existing or individual Baseboards. The support of common touch displays and wireless technologies required for the IoT is a matter of course.

Whether you want to develop your own Baseboard or we do the development for you: In any case, the SoM SL STM32 MP157 is the excellent basis for a fast and reliable design and your project success.

Client Benefits

- Communication and realtime in one intelligent package
- > Quick and easy realization of complex processor solutions
- No special layout know-how needed for DDR3-RAM connectivity
- > Short time to market
- > Requires only one voltage supply (3.3 V)

Applications

- > Automation
- > Medical technology
- Communications
- loT/Industry 4.0
- Single processor module for wide range of Baseboard families
- Minimum-footprint applications

About Kontron

Kontron AG is a leading IoT technology company. For more than 20 years, Kontron has been supporting companies from a wide range of industries to achieve their business goals with intelligent solutions. From automated industrial operations, smarter and safer transport to advanced communications, connectivity, medical, and energy solutions, the company delivers technologies that add value for its customers. With the acquisition of Katek SE in early 2024, Kontron significantly strengthens its portfolio with the new GreenTec division, focusing on solar energy and eMobility, and grows to around 8,000 employees in over 20 countries worldwide. Kontron is listed on the SDAX® and TecDAX® of the German Stock Exchange.

About Kontron Electronics

Kontron Electronics GmbH is a full-service provider in the field of electronics, development and manufacturing services. Our business portfolio includes proprietary and client-specific products, development and design services for complex electronics components, modules and systems, as well as production and assembly services for entire devices. The company is part of the technology corporation Kontron AG.
